REV Fiber opens 2027 academic scholarship application for high school seniors in 11-parish service area

Students are encouraged to submit their application before February 3 deadline

Gonzales, La. – REV is now accepting applications for the 2027 academic scholarship for graduating high school seniors. Eligible students may submit their applications online through February 3, 2027.

For more than four decades, REV has invested in local students through its scholarship program, helping recipients pursue their higher education goals. Since the program's inception, REV has awarded more than $1M in scholarships to 269 graduating seniors throughout South Louisiana.

"South Louisiana's future will be shaped by students who dare to imagine what comes next," said Josh Descant, CEO of REV. "By investing in their education, REV Fiber is helping turn today's aspirations into tomorrow's ideas, discoveries and opportunities."

The scholarship program remains one of REV's longest-standing community investments, recognizing students who demonstrate academic excellence, leadership and a commitment to serving others.

"Each year, we continue to be blown away by the quality and quantity of applicants," said Tressy Leindecker, REV's executive vice president of Sales and Marketing. "These students' dedication to their schools, families, and communities reflects what make South Louisiana such a special place, and being able to support these young and local leaders as they pursue their goals is incredibly meaningful."

To be eligible for consideration, applicants must meet the following requirements:

- current REV residential customer in good standing
- reside in a REV service area
- minimum cumulative GPA of 3.5
- impactful essay submission.

The REV Fiber Scholarship Selection Committee also factors in the following considerations:

- ACT scores
- financial need
- demonstrated leadership and community involvement.

Top applicants will be invited to participate in an interview as part of the scholarship selection process.

Students interested in applying can learn more and submit their application online at www.revfiber.com/scholarship before February 3, 2027.

About REV
REV is South Louisiana's largest locally owned internet and communications provider. Formed in 2022 through the merger of Reserve Telephone Company (RTC), EATEL and Vision Communications, REV has served rural and urban communities for 90 years. The company operates more than 5,000 miles of fiber and serves nearly 70,000 residential and business customers, all supported by local teams who live and work in the communities they serve.

Through its flagship fiber offerings — including REV Fiber for residential customers, REV Fiber for Business and connectivity for multi-dwelling units through REV Fiber for Communities — the company continues to advance next-generation infrastructure that connects homes, businesses and communities across the region.

To learn more about REV's investment in the future of South Louisiana — championing localism and expanding across the region — please visit www.revfiber.com.
